

# Sampleify LIMS

Complete lab process automation

One Platform for  
**Smarter, Faster, and Reliable**  
Laboratories

# About Deepak Cybit

Your Trusted Partner  
in Digital Transformation

At Cybit, we build intelligent, scalable, and user-focused software that helps organizations simplify complexity and accelerate growth. With deep expertise in technology, design, and engineering, we deliver reliable digital solutions for Safety Management, R&D Management, and Laboratory Management that streamline operations and support smarter decision-making.

As a trusted partner in digital transformation, we help businesses modernize legacy processes, improve operational safety, and drive innovation through intuitive platforms designed to evolve with their needs.

With 13+ years of combined experience, support for multiple global enterprises, and proven success serving Asia's largest phenol plant with LIMS solutions, Cybit brings practical expertise and lasting value to every transformation journey.

## Our Credentials

- Proudly Made in India technology solutions
- 13+ years of combined experience in delivering technology solutions
- Trusted by organizations of all sizes across India for digital transformation and software adoption
- Focused on helping businesses derive measurable business value from technology—not just implementation
- A strong 35-member team spread across Vadodara, Mumbai, and Pune

## Trusted by Leading Organizations

and many more digital transformations.

# Our Products

## Athena

Comprehensive R&D  
Management System

## Sampleify

Laboratory Information  
Management System

## DocuFlows

Document Management  
System

## IMS

Integrated Management  
System

## Occusafe

EHS Management  
Software

## Work Permit

Manage all work  
permits seamlessly

## QMS

Quality Management System -  
CAPA & Audits

## ESG

Environment, Social,  
& Governance

# We understand your struggles

Inefficient Data Management

Non-Compliance Penalties

Poor Workflow Management

Difficulty in Instrument Management

Document Management Chaos

Manual Invoicing & Quotation

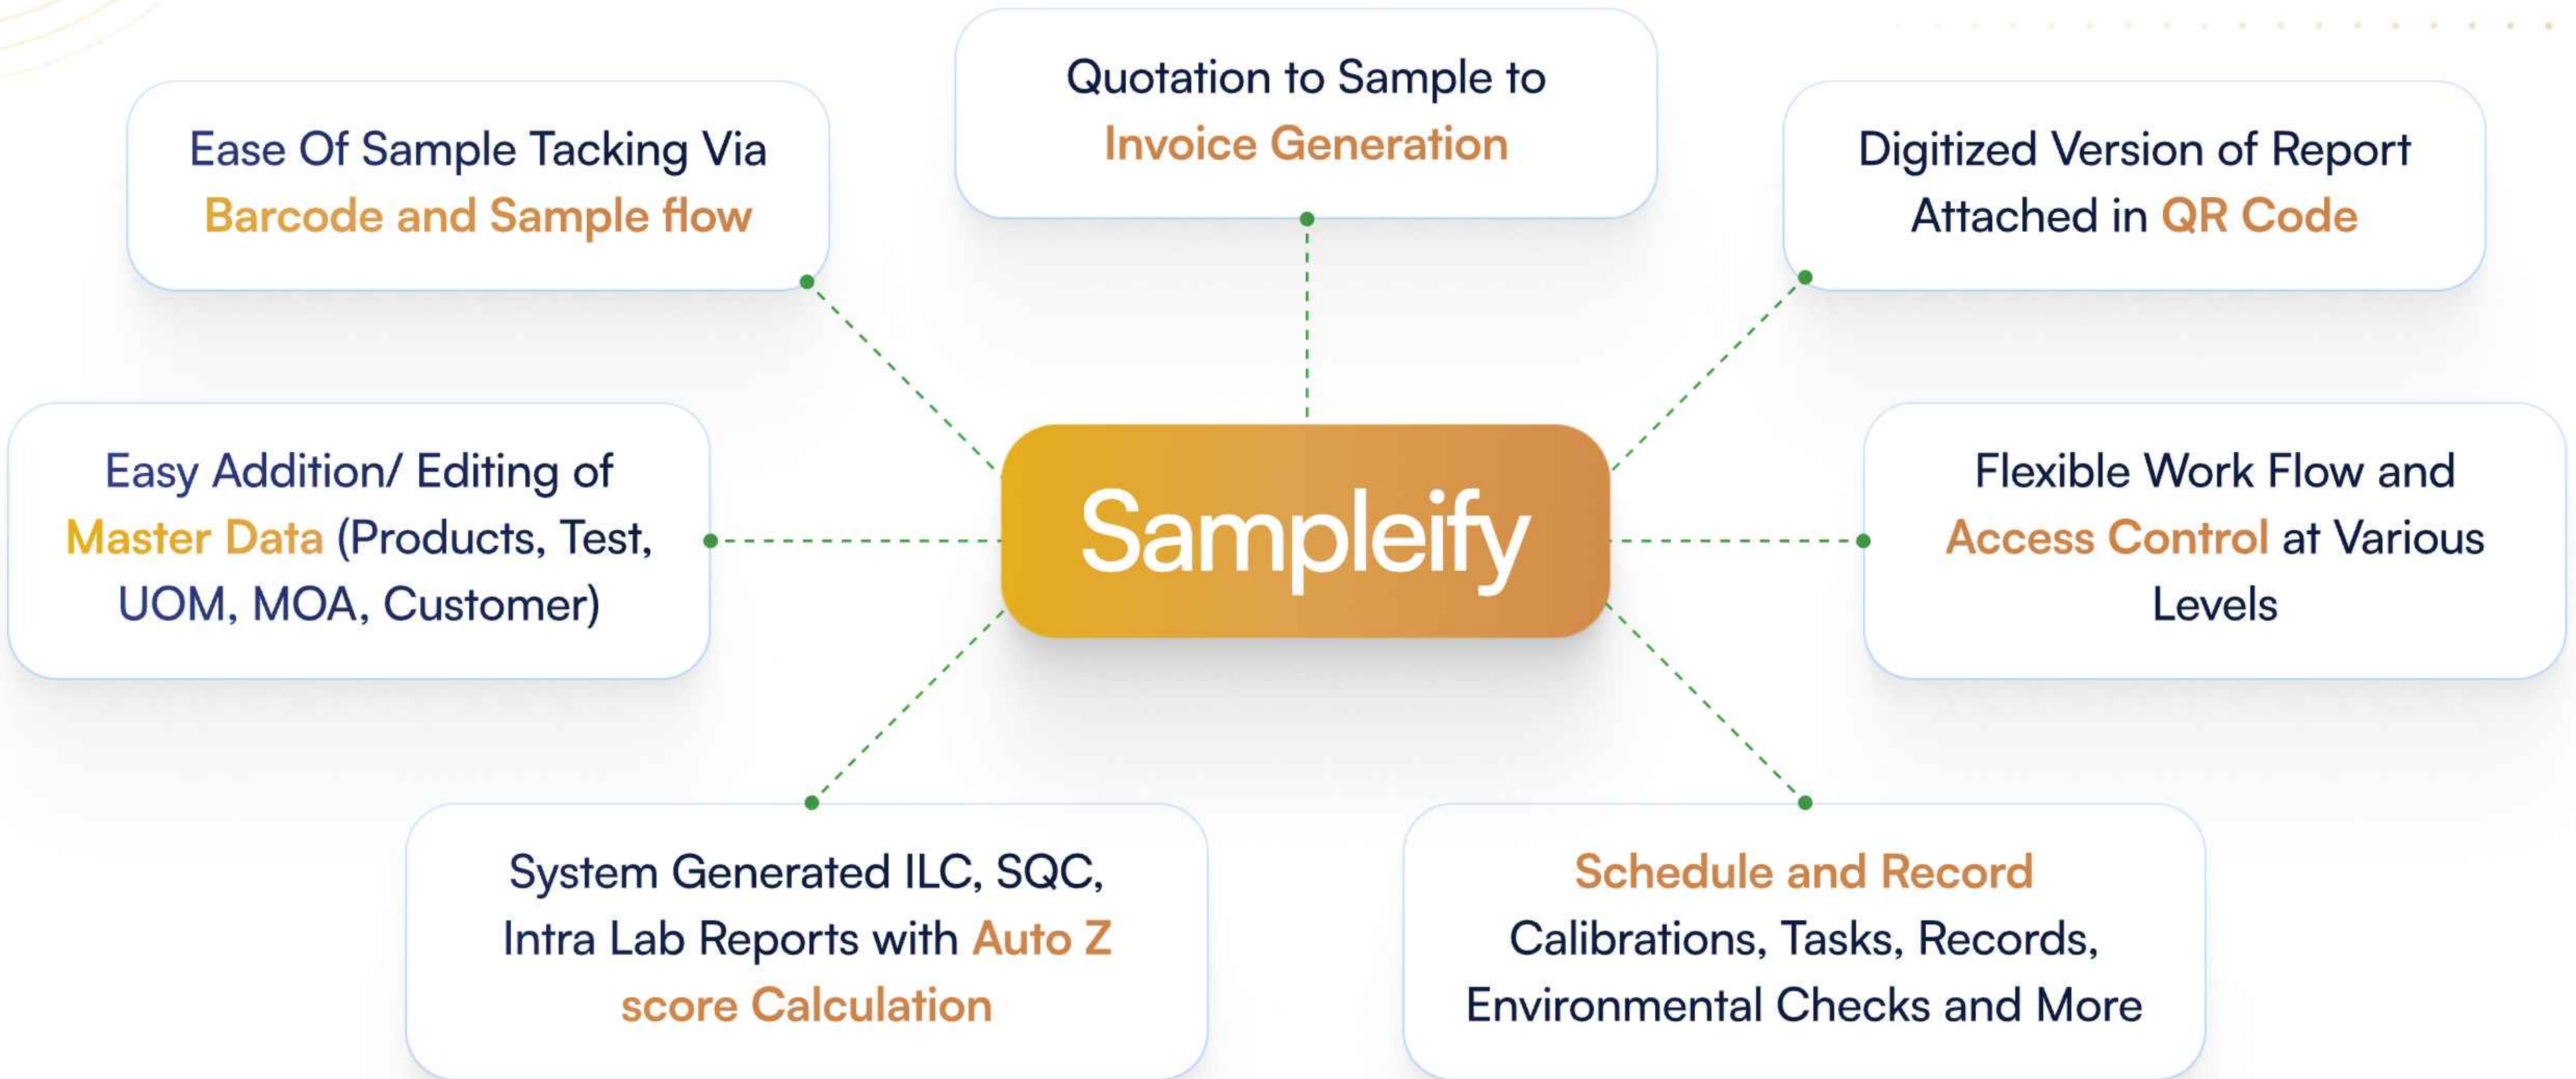

# What is Sampleify?

## Complete lab process automation

Sampleify (LIMS) digitizes and integrates every aspect of lab operations from instruments, inventory, and training to reports, NABL records, invoicing, quotations, and customer management. It ensures seamless workflows while enabling strong ISO and NABL compliance through standardized processes, complete traceability, audit trails, and accurate, inspection-ready documentation.

# Why choose sampleify?

# One solution to all lab problems

## Centralised Digital Lab Data

70% less manual data entry

## Compliant Lab, Always

~50% fewer non-conformities

## Faster Automated Workflows

30–35% faster lab turnaround

## Every Instruments Monitored

Get Instrument health updates instantly

## Get Any Document in <1 min

60% less audit preparation effort

## Invoices Managed Digitally

Zero paper-work required

# Key Features

## Sample Lifecycle Management

Track every sample from intake to final COA.

## Inquiry, Quotation & Invoice Management

Manage all inquiries, quotations and invoices in one place.

## Custom COA Report Generation

Create COAs in your lab's format with customizable templates.

## Secure Document Management

Keep SOPs, reports, certificates, and records access-controlled.

## Training & Competency Management

Manage trainings, leave records and competency in one module.

## Instrument & Inventory Management

Manage instrument calibration & maintenance and inventory.

## Customer Portal & Feedback

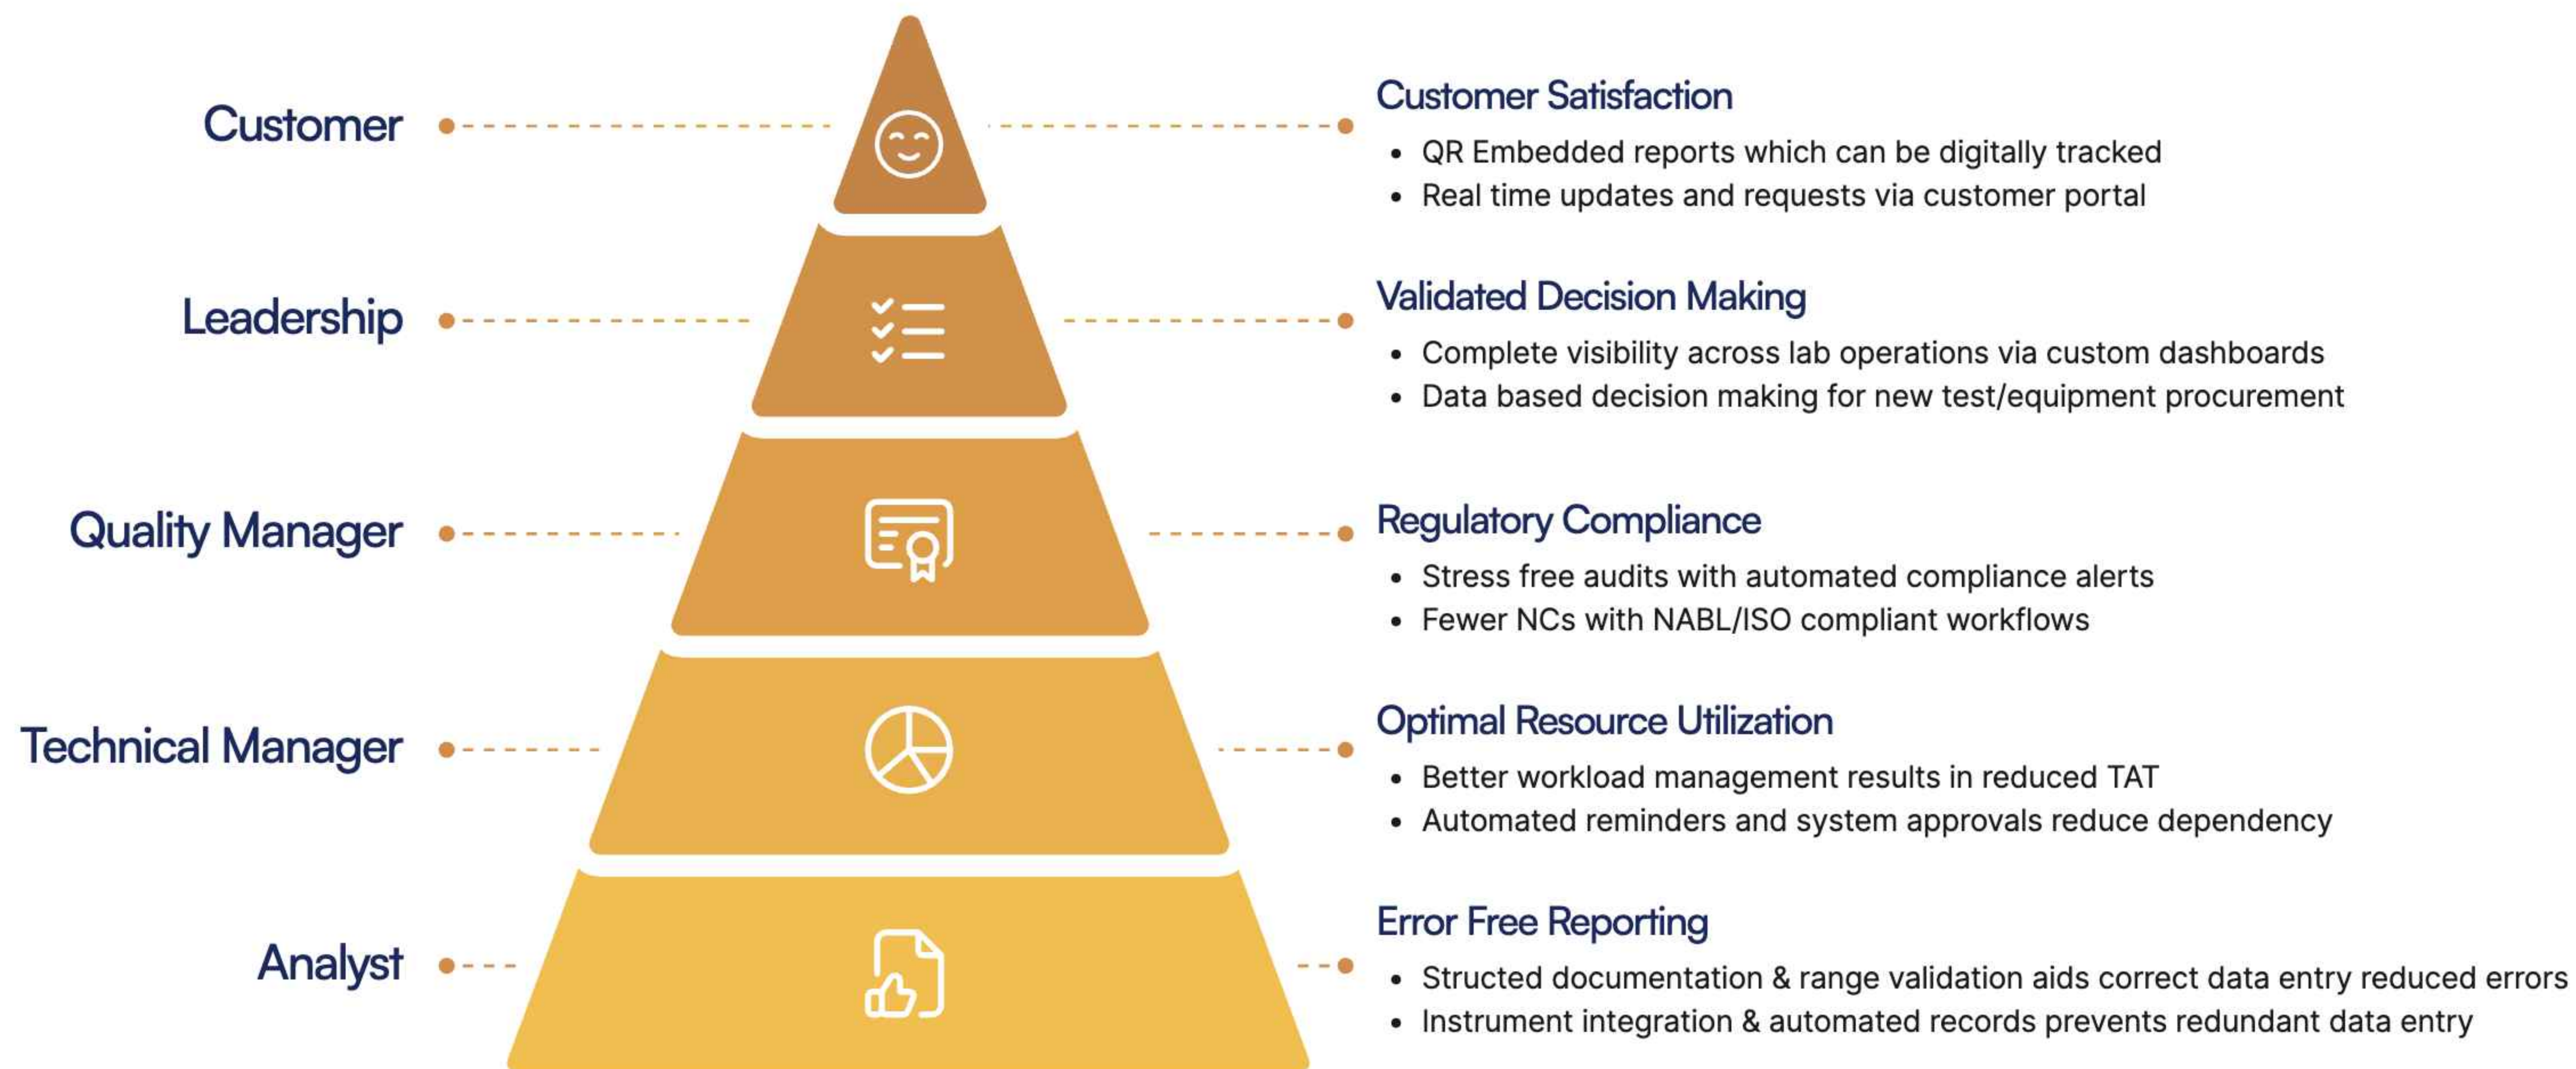

Let customers submit requests and give feedback.

## Instrument Integration

Pull readings directly from instruments reducing manual entry.

# Benefits to the Organization

Your Trusted Partner in  
Digital Transformation

# Thank You
